An opposing view

This is a country for white Aryans only

HAYDEN LAKE, Idaho — The right of self-preservation for the individual, or of a racial nation composed of individuals, is an inalienable, fundamental right. Therefore, our white or Aryan nation has a right and is under an obligation to preserve itself and its members.

For these ends, the Declaration of Independence and Constitution of the USA became the organic law in perpetuity for their white racial "posterity." Thus was created a government of organic law and not of men or men's opinions.

The framers also noted "that when any form of government becomes destructive of these ends, it is the right of the people to alter or abolish it."

The "we the people" in the Constitution's preamble were and are the Aryan or white race of people who became the lawful de jure citizens of this new national state for our race.

Our present generation of white Aryan people living in the USA and the free, white immigrants constitutionally admitted are the only lawful de jure citizens as the posterity of those who framed and adopted our Constitution.

It is self-evident that a government de facto has introduced a state of war against the white racial posterity or citizens de jure, therefore also self-evident that a counterrevolution to that of 1776 has been and is now in progress.

Today, the lawful citizens are being dispossessed from farms, homes, businesses, and employment while their country is being invaded by alien hordes on a scale unprecedented in all the world's history.

John Locke said: "A con-

quest may be called foreign usurpation, and also usurpation is a kind of domestic conquest, with this difference, that a usurper can never have a right on his side where he gets possession to what another has a right to." Today, the de jure citizens exist under a de facto government based upon an illusion or deception that a new constitution instituted by gun and bayonet and called the 14th and 15th amendments was constitutionally adopted.

We are also asked to believe that the laws of nature and of nature's God can be repealed, and that Congress and courts can "twist a rope of sand" as Ralph Waldo Emerson put it.

The undisputed record attested by official journals and the unanimous writings of historians establish that these so-called amendments were never constitutionally ratified and that even their proposal was treason to the Constitution and the lawful citizens.

When the fate of a nation and a people is imperiled from within its own ranks and from aliens who have joined its ranks, and when within the space of one or two generations the society established by its forefathers has been riven from its frame, the guardians of that nation must take action to defend their people from their own destructive elements and repair their defects or be held responsible before God and man for their inaction.

Elected administrators of the supreme law, your nation is calling.
